## PROFESSIONAL SUMMARY

Aspiring Web Developer with a drive to create exceptional user experiences through HTML, CSS, JavaScript, and TypeScript. Proficient in React, Next.js, Express, and PostgreSQL, with a strong focus on optimizing user interfaces, improving page load speeds, and enhancing organizational efficiency. Currently pursuing a Bachelor's in Computer Science and Engineering at Varendra University.

## Programming Languages and Frameworks

HTML, CSS, JavaScript(ES6), Typescript, SQL, C, C++, Java, Python, Dart, React, Vue, NextJS, Express, Node, Bootstrap, PostgreSQL

## EDUCATION

### **Varendra University** - *B.Sc. in CSE*

Expected Graduation: 2028

Transferred credits from York University, Canada

### **York University** - *i.B.Sc. Computer Science*

January 2022 - December 2023

Completed 48 credits in major courses, transferred to Varendra University

## PROJECTS

### [Weather App](#)

Developed a dynamic weather application using Vue 3 and the Mapbox API, deployed on Netlify. The app provides real-time weather updates based on the inputted city, displaying detailed data such as temperature, humidity, precipitation, and wind speed.

### [E-commerce Website](#)

Developed a full-stack e-commerce website for the clothing brand *Aesthetix*, featuring a responsive storefront and admin panel for product management. Integrated Stripe for payment processing and AWS S3 for static asset storage. Utilized Express and PostgreSQL for backend operations, ensuring smooth performance and scalability, deployed on Railway.
