## Career Objective:

I am a driven person with a solid background in web development. Utilizing my technical expertise and knowledge to make a positive impact on the ever-evolving field of technology is my career goal. I want to become a more skilled web developer by being flexible and always learning new things. I want to help create user-friendly, safe, and innovative digital experiences. My objective is to apply best practices, solve difficult problems cooperatively in groups, and significantly influence how web development is developed in the Future.

## Experience:

### MM Water Engineering - Web Developer (Project Basis)

Dhaka, Bangladesh.

August 2024 - October 2024

- Working as a full-stack developer in MERN stack.
- Ensure secure browsing.

### Softex Solution - Program Developer Intern

USA (Remote).

January 2024 - April 2024

- Design and establish user friendly website, using React Framework.
- Ensure secure browsing.

## Skills:

**Expertise:** HTML | CSS | Bootstrap | Tailwind | JavaScript | ES6 | DaisyUI | Material UI | React | React router | Firebase | Express.js | Rest APIs | MongoDB | JWT | Redux | Typescript

**Familiar:** Stripe | sslcommerz | Node.js | Axios | Next.js | Python | PHP | C | C++ | MySQL

**Tools:** GIT | NPM | Yarn | VS Code | DevTools | Figma | GitHub | Netlify | Vercel

**Problem-Solving:** Over 400+ solved problems (HackerRank, Beecrowd, and LeetCode) on different platforms

**Interpersonal skills:** Leadership | Communication | Time Management | Active Listening | Collaboration

## Projects:

### Eco Smart Bins (Team-Project) (Full Stack Website || Admin || Worker || User) [Live Link](#) || [Client-Side](#) || [Server-Side](#)

- ❖ Built a user-friendly website promoting sustainability with waste management solutions (service overview, pickup requests, eco-shopping).
- ❖ Enhanced user experience with cutting-edge technologies (React, smooth interactions, efficient data fetching).
- ❖ Designed user-friendly features and optimized performance with modern technologies (pickup requests, eco-shops).

**Technology:** React.js, Express.js, MongoDB, Firebase Authentication, Redux, Transtack Query, React awesome components, Implement Payment Gateway (SSL), JWT authorization with tokens, and more.

### Smart Pulse Treaker (Full Stack Website || Admin || Trainer || User)

[Live Link](#) || [Client-Side](#) || [Server-Side](#)

- ❖ Personalized dashboards for users, admins, and trainers.
- ❖ Secure access with JWT and Firebase.
- ❖ Responsive UI with React.js and Express.js.

**Technology:** React.js, Express.js, MongoDB, Firebase Authentication (Recaptcha), Transtack Query, React awesome components, Implement Payment Gateway (Stripe), JWT authorization with tokens, and more.

**Skill Fusion Hub** (Full Stack Website || User)[Live Link](#) || [Client-Side](#) || [Server-Side](#)

- ❖ SkillFusion Hub is an online job portal web application designed for responsiveness.
- ❖ Users need to log in via Google, Github, or Twitter (they can also create a new account).
- ❖ Have a user. The user can post or reject a job, and other users can modify it.

**Technology:** React.js, Express.js, MongoDB, Firebase Authentication, Transtack Query, React awesome components, React hooks, JWT authorization with tokens, and more.

**Education:**

BSc in Computer Science and Engineering (2020-2024)

Daffodil International University, Dhaka.

CGPA: 3.67

**Volunteer Experience & Professional Affiliations:**

- Students Prefect, Database Management System Course, DIU, January 2023 - December 2024
- Executive Member, (IEEE DIU Student Branch) DIU, August 2023 - February 2024
- Executive Member (Computer and Programming Club) DIU, July 2022 - April 2024
- Volunteer, DIUXMoonton Summer Curnival 2022 by DIU CPC and Shanghai Moonton Technology Co.Ltd, China
- Best Boy Award, St.Louis High School, 2017
- Best Speaker in Debate Competition, Intra School Debate Competition, Saint Ritas High School, 2016

**Certification:**

- Complete Web Development Course - Jhankar Mahbub, awarded by Programming Hero
- Interactivity with JavaScript, awarded by the University of Michigan
- HTML, CSS, and Javascript for Web Developers, authorized by Johns Hopkins University
- Learn JavaScript by Creating 10 Practical Projects by Udemy
- Build Restaurant Management System and Fast Food Ordering System in the Same Project in PHP MySQL Bootstrap PayPal by Udemy
- Certified Ethical Hacker (CEH) certification, awarded by Team Matrix
- Foundations of Cybersecurity, authorized by Google
- Android App Development certification. Awarded by E-Shikhon
- Google Cloud Big Data and Machine Learning Fundamentals certification, authorized by Google Cloud
- Machine Learning certification. Authorized by Stanford University and DeepLearning AI Specialization
- Unsupervised Learning, Recommenders, and Reinforcement Learning, authorized by Stanford University
- Crash Course on Python certification, authorized by Google IT Automation with Python Specialization
- Fundamentals of digital marketing certification, awarded by Google Digital Unlocked
- Google Analytics for Beginners certification, awarded by Google Analytics Academy.
- Positive Psychiatry and Mental Health certification, authorized by The University of Sydney
- English for Science, Technology, Engineering, and Mathematics certification, awarded by the University of Pennsylvania

**Language:**

Bangla (Native) || English (Fluent)
